

Apply only for water pot**Note:**

- Before First Use, Clean the Pot thoroughly with water from inside and outside using soft sponge and then fill it with water for 5- 6hours.
- After, empty the pot and again wash it thoroughly. And dry it before use. This is to be done once only.
- Clean the Pot thoroughly in every 1 days a week or even cleaning daily is much better to avoid any kind of deposition on the pot and to keep its pores open for Cooling properly.
- Keep a Plate or a stand to accumulate the seeping water from the pot to avoid spilling of water on the platform or floor.
- Always clean with tepid water or with baking soda or Lemon, avoid chemical detergent or steel scrubbers to clean the pot.
